

ShuddhiCheck AI – Vietnam Readiness Brief

Last Updated: May 2025

Overview:

ShuddhiCheck AI is a HIPAA-secure, AI-powered compliance platform developed to assist Vietnam's rural. The system offers Vietnamese language support, mobile-optimized access, and offline syncing for remote

Focus Regions:

- Hanoi
- Da Nang
- Ho Chi Minh City (integration partnerships)
- Mountain provinces and underserved communes

Key Features for Vietnam:

- Vietnamese UI and compliance vocabulary (planned Q3 2025)
- Offline compliance for mobile clinics and commune health posts
- Cross-department coordination API (public health + EMS)
- Risk alerting for communicable disease and safety violations

Prepared For:

- Vietnam Ministry of Health
- Provincial Health Departments
- NGOs operating mobile health outreach in underserved areas
- WHO Western Pacific Region (WPRO) partners

Early Adopter Benefits:

- 25% discount (until June 2025)
- Free Vietnamese UI onboarding
- Full support for commune-level mobile pilot sites

Implementation Timeline:

- Week 1–2: Infrastructure setup, language integration
- Week 3–4: Live dashboards and mobile risk monitoring
- Month 2: Health post reporting + MoH API sync
