

## ShuddhiCheck AI – Nigeria Readiness Brief

Last Updated: May 2025

### Overview:

ShuddhiCheck AI is a HIPAA-secure, AI-powered compliance and reporting system built to support rural health workers. The platform prioritizes multilingual access (Yoruba, Hausa, Igbo, English) and supports offline-first operation.

### Focus Regions:

- Lagos
- Kaduna
- Enugu
- Cross-state mobile unit networks

### Key Features for Nigeria:

- Multilingual UI support (Yoruba, Hausa, Igbo, English)
- Offline dashboard access for CHCs and rural clinics
- Emergency compliance alerts & mobile tracking
- Local health authority reporting templates

### Prepared For:

- Federal Ministry of Health Nigeria
- State Health Commissions (Lagos, Kaduna, Enugu)
- NGO/WHO partners operating mobile health units
- Community Health Center (CHC) administrators

### Early Adopter Benefits:

- 25% discount (until June 2025)
- Swahili/Nigerian language customization at no cost
- Onboarding & mobile health training included

### Implementation Timeline:

- Week 1–2: Infrastructure setup, language localization
- Week 3–4: Mobile health integration & real-time alerts
- Month 2: Full reporting + regulatory sync
