

ShuddhiCheck AI – Phase II Country Readiness Brief

Country: Lithuania

Region: Europe

Phase II Launch Date: May 2025

1. Overview

Lithuania offers a digitally secure and innovation-focused environment for ShuddhiCheck AI's Phase II expansion. As a leader in cybersecurity, e-governance, and digital health pilots, Lithuania is strategically positioned to host AI-powered compliance solutions in the public health sector.

2. Compliance Environment

Key Frameworks:

- GDPR compliance enforced by the State Data Protection Inspectorate (VDAI)
- Participation in EU AI Act implementation and ethical AI oversight initiatives
- eHealth platform coordinated through the Ministry of Health and the Center of Registers

Target Alignment Areas:

- Lithuanian-language dashboards for GDPR and AI compliance
- Risk alert automation tools for hospital systems
- English demo kits for EU and U.S.-based public-private partners

3. Local Context

Lithuania's public healthcare is administered by the Ministry of Health and supported by a robust national IT infrastructure. The country is a regional leader in cybersecurity and health data protection, with increasing AI integration across health tech platforms.

4. Localization Notes

- ****Lithuanian****: Required for all public-facing dashboards and compliance outputs
- ****English****: Accepted for demo tools, pilots, and international outreach
- ****Russian / Polish****: Optional for region-specific deployments, not required for national rollout

5. Initial Outreach Targets

- Ministry of Health – Lithuania
- State Data Protection Inspectorate (VDAI)
- Center of Registers
- Health Information Centre – Institute of Hygiene
- GovTech Lab Lithuania

6. Demo Readiness

- Lithuanian-language compliance dashboard aligned with GDPR + EU AI Act
- English pilot kit for GovTech, VDAI, and institutional demos
- Risk tagging system for hospitals and data protection teams

Status:  Country added to Phase II (Late Expansion)

Next Step: Begin outreach to VDAI, GovTech Lab, and Ministry of Health for pilot onboarding.
